how at g-liu.com/resume

## Professional experience

- 2020-24 **Senior software engineer** · *PayPal*, Seattle WA (remote)  
Constantly developed new user-facing experiences across the PayPal iOS app in Loyalty, Rewards, and Shopping; as well as addressing technical debt, release, and on-call needs. Contributed to a major redesign of the app in late 2023, ensuring quality of code through code reviews, unit, UI, regression, and snapshot testing; and daily collaboration with QA, managers, design, and product teams. Hosted knowledge sharing sessions through the organization to encourage other teams to adopt best practices in software development.
- since Sep 2020 **Violin/viola instructor** · *The Key to Change*, Renton WA  
Provide instruction to group classes and individual students in a socioeconomically diverse music studio. Write lesson plans, classroom expectations, and student progress reports for each trimester. Accompany students on piano for events, festivals, and recitals. Address technical needs when necessary.
- 2016-20 **Web / iOS engineer** · *Groupon*, Santa Clara CA & Seattle WA  
Owned the development of over 25+ features in the Groupon iOS app and Groupon Goods web presence, supporting key business goals such as Groupon+ and Groupon Select. Wrote extensive unit test and UI automation suites for stability and regression tracking. Contributed to a significant app-wide re-architecture of the deal page screens. Advised managers on design and implementation decisions.
- 2015 **Software engineering intern** · *CDK Global*, Seattle WA
- 2013 **Programming intern** · *Seattle Publishing*, Seattle WA

## Education

- 2012-16 **B.S. Computer Science; Minor in Music** · *Univ. of Washington*, Seattle
- Direct admission into Computer Science, 2012
  - Dean's List candidate, 2012–16
  - CSE undergraduate teaching assistant, 2014–16
  - Webmaster, ASUW (student government), 2013–14
  - 3.73 overall cumulative GPA

## Side projects

- HowManyCities iOS clone** MapKit/MapCache • SwifterSwift • Unit/UI testing
- Wordle With Friends** Swift 5 • MVVM • XCUI Tests • UIKit custom keyboard
- PeaceTrees Vietnam map** MapBox • KML • ExpressJS • ReactJS • Node
- Redwood Symphony new site** WordPress/PHP • ACF • SEO • CSS3 • SQL
- Nagios alerts visualizer** Bootstrap • Web scraping • multi-threading
